SERGIO BARRIENTOS

Enterprise AI Solutions & Linux Platform Engineer

Madrid, Spain | sergiobarrientose@outlook.com | LinkedIn | sergiiob.dev | GitHub

PROFILE

Bilingual platform engineer with experience translating application and business requirements into secure infrastructure within regulated banking and international enterprise environments. I lead a RHEL 8 to 9 migration, contribute to internal Azure AI Foundry and Document Intelligence prototypes, and have shipped two AI-enabled Android products. My work combines stakeholder communication, security-conscious delivery, network and platform architecture, technical documentation, and hands-on experimentation with LLM APIs and local model serving.

EVIDENCE RELEVANT TO SOLUTIONS ENGINEERING

Stakeholder communication: Partner with Application Owners and technical teams to clarify requirements, explain constraints, coordinate change, and resolve cross-layer incidents.

AI prototypes and products: Contribute to internal document-AI exploration and independently shipped IntelliAuto and IntelliFlow with AI-assisted workflows and Firebase backends.

Regulated enterprise delivery: Operate within BaFin/ECB-supervised banking controls covering hardening, auditability, availability, change management, and data-sensitive workflows.

Technical demonstrations: Publish reproducible LLM deployment and performance work, translating hardware, privacy, latency, concurrency, and cost constraints into practical guidance.

PROFESSIONAL EXPERIENCE

Linux and Virtualization Engineer | Deutsche Pfandbriefbank AG **Jul 2025 - Present**

Madrid | BaFin/ECB-supervised bank | Team supporting 300+ RHEL servers

- Lead the bank's RHEL 8 to 9 migration project, coordinating technical scope, dependencies, phased execution, validation, and stakeholder communication.
- Advise Application Owners on Linux requirements and troubleshoot services across Nginx, Apache, Tomcat, JBoss, PostgreSQL, networking, and SSL/TLS boundaries.
- Build Ansible and Git-based workflows for repeatable deployment and controlled infrastructure change.
- Support hardening, patching, CheckMK monitoring, HA/DR, VMware, and banking-critical workloads.
- Contribute to internal Azure AI Foundry and Document Intelligence prototypes for document-processing and workflow automation use cases.

IT Application Specialist / Linux System Administrator | Sopra Steria **Apr 2023 - Jul 2025**

Madrid | Norwegian railway-sector client | 100+ Linux and Windows servers

- Coordinated a five-person team supporting a critical application environment and communicated with the customer in English.
- Resolved incidents spanning RHEL, Windows, Azure, identity, and application services while balancing technical risk and service impact.
- Automated administration with Ansible and managed incidents, requests, documentation, and controlled changes through ServiceNow.

SELECTED AI PRODUCTS AND TECHNICAL WORK

- **IntelliAuto:** Published Kotlin/Firebase vehicle-management application with AutoMind AI, ML Kit OCR, encrypted offline storage, and maintenance workflows.
- **IntelliFlow:** Privacy-focused personal-finance application with offline-first storage, controlled cloud sync, projections, and DeepSeek-backed insights.
- **LLM engineering portfolio:** API and local inference experiments across llama.cpp, GGUF, Intel SYCL, AMD ROCm, RK3588, KV-cache tuning, and concurrency testing.

CAPABILITIES

AI / development	GenAI prototyping, Azure AI Foundry, Document Intelligence, LLM APIs, REST integration, Firebase, Kotlin, JavaScript/TypeScript exposure, llama.cpp
Architecture / security	Linux and network architecture, RHEL, Satellite, Ansible, VMware, SELinux, SSL/TLS, HA/DR, monitoring, PostgreSQL
Customer-facing strengths	Bilingual English/Spanish communication, requirements clarification, technical explanation, documentation, coordination, incident and change leadership

EDUCATION AND LANGUAGES

RHCSA, Red Hat Certified System Administrator (2024)

Technician in Computer Systems and Networks Administration, Madrid (2023)

Spanish: Native | **English:** Professional
